WORK EXPERIENCE

Startup Founder

2023

Belisama Yacht

Leading Belisama Yacht, a pioneering startup focused on sustainable maritime innovation. We specialize in designing environmentally responsible boats with advanced Foil technology, significantly reducing ecological impact, especially in sensitive areas like Venice's lagoons. Our diverse fleet comprises luxurious private vessels and efficient public transport options, addressing urban water mobility challenges. A key initiative is our collaboration with technology partners for integrating the latest in electric propulsion and energy storage. We're also developing rapid charging stations for electric boats, setting new global standards. A notable part of our venture is the EcoCat project, aimed at creating sustainable, efficient electric catamarans for cleaning and maintaining waterways. Our mission is to blend Venice's rich nautical heritage with sustainable technology, initially focusing on Venice's unique needs before expanding globally.

Event Manager

September 2023

"WAKING THE SLEEPING GRAPE" Project in Venice

I collaborated with this Chinese project during the Venice Film Festival, managing and contributing to this high-profile, culturally diverse project. My responsibilities encompassed managing and coordinating transportation for guests and investors between hotels, airports, restaurants, and various event locations. My role involved organizing trip days in Venice, ensuring each itinerary was meticulously planned and executed. Additionally, I managed the logistics of a filming day, which involved coordinating multiple boats and diverse groups of people.

Beyond logistical coordination, I was actively involved in investor relations, serving as a key point of contact and ensuring that their needs and expectations were met throughout all days of the event. My role in event logistics management was comprehensive, covering every aspect from planning to execution, ensuring a smooth and successful experience for all participants. This experience underscored my ability to manage complex logistics, handle high-stress situations, and foster positive relationships with diverse stakeholders.

Innovation, Research, and Development

(By project) 2020-2023

OMD Group Recycling Technologies

I've been part of teams working on pioneering projects like ozone sanitization systems for covid-19 emergency, the Eco-Cat electric catamaran for collecting plastic in the water, and new plastic waste disposal technologies.

Social Media Manager

September 2022 - December 2022

Multistudio Productions

At Multistudio, I was responsible for managing and strategizing our social media presence, creating engaging content to enhance brand visibility and engagement. Additionally, I actively engage in cold calling potential clients, successfully organizing appointments and expanding our client base. This role requires a blend of creative digital marketing skills and effective communication abilities, facilitating both online growth and direct interaction with customers.

WORK EXPERIENCE

Palista and Plant Manager

June 2021 - August 2021

OMD Group Recycling Technologies

As a Plant manager, I oversaw the operations of a waste recycling plant. This role involved monitoring, evaluating, and managing processed materials, team coordination and operating heavy machinery.

Managing assistant - Rider

June 2021 - September 2021

Vorrey s.r.l. / Treviso

Working in home delivery, I focused on efficient delivery services and collaborated closely with the manager for shift organization in Treviso

Construction, Testing, and Maintenance Manager

June 2020- August 2020

OMD Group Recycling Technologies

My responsibilities included supervising the construction, ensuring operational efficiency, and leading maintenance of waste recycling plants, which improved my leadership, technical knowledge, and project management skills.

Delivery Man

February 2020 - May 2020

Pizzeria Pasqualino

Delivering pizzas and performing internal duties, I developed my customer service, efficiency, and time management skills. (covid-19 Lockdown period).

Supply Manager

June 2019 - September 2019

OMD Nastri

I managed supplies and organized the warehouse, honing my skills in logistics and organization.

Skipper

July 2018

Sailing Challenge Corporate Sailing Events and Regattas

As a skipper in this event, I led a multinational team, teaching them the basics of sailing and managing various event-related tasks. This role enhanced my communication and leadership skills.
